FRIDAY MORNING, APRIL 17, 1874.

THE PEOPLE MOVING The key-note pitched at Bartlett, in this county, a few weeks since, has received a harmonious answer from every part of the State. In every county Demograts and Conservatives are working in perfect concord. There seems to be a determination in every county to nominate the best men and to give the people an opportunity to select their own candidates, instead of the tricksters and wire-pullers who have heretofore managed this business. We have never seen such a desire, such a determination, to have fair nominations—to let the people make their own selection-as is now indicated in every county. Our friends in Maury county are moving in the right way, as will be seen from the following extract from the Columbia

Herald:

Last Saturday the different districts in Mastry county selected men to carry around the locked ballot-boxes for the I cencerais and Conservatives of the county to deposit their votes in, for candidates for the different offices. So far as we have heard, the gentlement selected for this important work are ment except man in their respective districts, and being heatornlie men, will not influence the vote of any man for or against any particular candidate. The boxis will not be taken around until the last week in April, and in the meaniline it is the duty of every voter to choose a full licked, and have his mind thoroughly made up by the time the box comes around. Wheever does not rose will have but a very pour excuse for opposition to conventions.

The Democrats and Conservatives of Rutherford are actuated by the same caution and prudence, the same determinstion to secure harmony. A massmeeting was held at Murfreesboro a few days since, which declared in favor of the primary election system, as will be seen from the following extracts from the proceedings of the meeting:

the proceedings of the meeting:

First—The magistrates and constables of the various districts throughout the county, to open and hold an election under the state laws governing elections on the first Saturday, which is the second day of May, 1874; no person being allowed to vote at said primary election unless he live in the precinct in which he offers his vote. The constables in each district to be receiver in said elections, and is case there should be no constable, the magistrates he requested to ask some responsible person to set as constable, to take charge of the hallot-box; the votes to be counted by the parties holding the election, and the result of said election to be reported to the coroner of the county, who is requested to aggregate the vote points.

Second—The coroner of the county, on ascertaining the result, shall make notification through the county papers said result, and the parties receiving the highest number of votes

criaining the result, shall make nothication brough the county papers said result, and the arries receiving the highest number of votes hall be declared the nominees of the Bemoratic-tonservative party, for the offices to blick they are aspiring.

**Reserved. By the people of Rutherford county in mass convention assembled, that the reposition submitted by the candidates are error milited. proposition summisses of acceptance of the proposition are surely ratified.

Remoters, That it is hoped and earnestly arged to at every voter attend the primary injection on the first Saturday in May next, and have a voice in the selection of county

discers. Resolved, That at said election there also be locked in each district three deregates to a county convention of the Democratic-Conservative party, to be held on the first Monday ellowing the first of May, and that a return I the vote at and election be made to said

or the vote at and election be made to envertibility.

Encoured, That the delegates elected to said county convention be empowered to nominate candidates for the legislature, selecticlegates in congresional and State conventions, and deride all the votes between candilates for county offices.

Br. J. W. Davis moved to amend the report by inserting "Democratic and Conservative" before the word "votes" in the second resolution, which excludes all from the polis at the primary election except Democratic and Conservative voters. Agreed to.

Thus it will be seen that the sound and true Democrats and Conservatives are organizing themselves into a strong cates that the tax-paying peoish aspirants that offices were not created for them, but for the publie good. Honest men are coming to the front. A healthy organization cannot be maintained without that harmony and unity of strength which now pervades the ranks of those who oppose Radicalism. It has been truly said that we cannot win this fight without a feeling of determination, strong and deep, to organize: that we have a vigilant. unscrupulous and thieving enemy to deal with-men that plan their infernal plots in the dark, in soft-cushioned chains bought with the money of the stabbed. He was eighteen years old people-an enemy amply supplied with

sources, rich in money that our overburdened taxpayers have contributed to profligate officials, and fully as ready now to corrupt as in other days they were alert to intimidate the action of the masses, And these officials exist from the highest office in Washington down to the official who basks upon the green of county courthouses. It is the game of these gentlemen to divide and distract as much as possible the Demecratic party, knowing very well that schemes? Will the vigorous young then arouse yourselves to energetic and unremitting exertions and perfect the organization from one end of the State

of negro immigration has been directed into Arkausas. Wide districts of Georgis and the Carolinas have been depopulated. Railway trains from southwestern States have been crowded with colored men, who came in greatest that they might reach the negro's para- after being shot. dise south of Memphis. These negroes have prospered. Very recently their face glistened in sunshine and blissful beatitude, and happiness wreathed with smiles the pleasant physiognomy of Africa in the lowiands. This is all changed now. Successive floods have swept over the cotton growing paradise, and Africa, half starved and in hopeless idleness, drifts about on an endless sea of five hundred thousand dollars. waters. If the floods do not subside that a crop may be produced and gathered, what must be the fate of these helpless people. Even now they seek exit from the submerged districts and wander sippi. Merchants in submerged districts give no credit, and wild animals and cattle, starved like the people, are unfit for food. The woes of Arkansas have only begun to be developed and people are forced to contemplate them because of ceaseless rain-storms and coming floods. Meanwhile, if starving negroes abandoning the lowlands and made desperate by mad man, an enthusiast, an insane zealot and partisan crazed by ambition —if such a man assume the leadership of such a body of negroes and gather an army, as he may, of fifty thousand blacks, we are not sure that Arkansas will be the most delightful local habitation known to our race. In fact, if the other calamity, and Arkansas become a hell of borrors.

DANGEROUS FREAKS OF THE MIS-SISSIPPI.

There is imminent danger that a fresh troke of bad luck is impending over Memphis. For some years the narrow isthmus, fifty or sixty yards wide, that separated the Mississippi from Loosahatchle and Wolf rivers, has been steadvisited the place where the waters of the great river have at last opened a diversion of the floodtide of the Mississippl, it is impossible to predict. The

niver's current, as we are informed, expends its whole force against the shore at the very point at which this crevasse has been made. If the resistless volume of water move on a straight line, it may sweep away several sawmills, and the navy-yard, and then transfer to New Orieans that great heap of sand lying in the midst of the stream just opposite the foot of Union street. But no living man can anticipate the conduct or movements of the Mississipi. A vast deal of property is involved, and, by bare possibility, even the admi-

able new courthouse, guaranteed to last as such for the full term of twenty ears(!). Since all this may be seized by be father of floods, and swept in among Sads's jetties, or block up the Barrataria anal, and pother the gulf stream, it aight be very well for persons interestd, and for those in authority, to invesigate the facts and possibilities to which ve refer, and if any great calamity, as esserted by a correspondent, impend wer the great fail, that cost tax-pavers salf a million dollars, measures to prevent it should be adopted.

WE had thought when yellow-fever ad done its worst, that the cup of Membis's woes was full to overflowing; but it was not. It was the river of death that hen deluged the land; now the great iver of the continent sweeps by, desolsing fields and homes, and destroying verything that obstructs its course, Vhen may these measureless calamities tave an end?

The proposition to establish a direct trade i etween the Mississippi valley States and Brazil by putting on a line of steamships from New Orleans to Rio Janeiro is attracting a great deal of at-tention in St. Louis. A speech, made before the board of trade by Colonel samuel Read, of New Orleans, in which he fully explained the project and gave an elaborate account of the benefits and profits which must inevitably result herefrom, is published, and was sub-ject to general comment and approval on change in that city Monday. All classes of business men heartily endorse he scheme, and the press speaks most favorably of it.

S. Wilson, accompanied by her
sister-in-law, Mrs. Thomas Watson,
went to the drug-stare of E. M. Shepherd and demanded the prescription
upon which her husband procured liquor.
Mr. Shepherd being absent, his clerk
told har she weald have to a Dr. old her she woold have to see Dr. scription. Mrs. Wilson regarding this as an evasion, drew a revolver from her couff, and told the clerk that If he did ot give up the prescription she would low his brains out, and presented the pist il to his head in a state of great ex-citement. A parley was had, however, and Mrs. Wilson was finally induced to call on Dr. Porter, which she did, with drawn weapon, and obtains revocation of the prescription. Loss about twelve thousand dollars, sides then marched to Shepherd's and with presented arms gave them their orders, after which they went nome, much to the relief of all the doctors and salsonists of the town.
